Dear Representatives of the United Kingdom's Financial, Monetary, Economic and Investment Institutions,

Following my submissions to central government, Parliament and local and regional authorities, I am inviting your respective institutions to examine the economic architecture of SHS Non-Monetary Counter-Inflationary Governance.

The accompanying proposition explores how initial monetary investment could establish regenerative productive infrastructure capable of progressively reducing monetary dependency, household expenditure and recurring governmental costs, whilst expanding the availability of real wealth.

I invite each institution to identify what economic assessment, specialist knowledge, independent scrutiny, investment consideration, institutional support or referral it could provide within its respective responsibilities.

The documentation is intended to initiate substantive human dialogue, through which the remaining financial and operational arrangements can be collaboratively developed and tested.

Should you decline to engage, I request a reasoned explanation.

SHS MariGracious's documentation, concerning the legislative and economic seed condition, is available upon request.

All intellectual property rights in the original SHS proposition are reserved.

Kind regards,

SNW

To: Susan Ndinga_Wright <susan.ndinga0wright@gmail.com>

Hi,

Thank you for getting in touch with UK Government Investments.

As your request is quite broad, our Freedom of Information team would be best placed to consider any specific information you are seeking. You can contact the FOI inbox directly with the details of your request - freedomofinformation@ukgi.org.uk.

Please note that they will only be able to provide information held by UKGI.

Many Thanks,

UKGI Enquiries Mailbox

Dear UKGI Enquiries Team,

Thank you for your response.

My original correspondence of 17 November 2026 is already awaiting a response through the Freedom of Information process.

However, my second correspondence, dated 25 November 2026, has not been submitted to your FOI team because it is not a Freedom of Information request.

It is this second correspondence that constitutes the subject of our current conversation.

I am not requesting information about an existing governmental arrangement. I am inviting your institution to contribute its specialist expertise towards the examination and development of a proposed arrangement.

To clarify precisely where UKGI's published responsibilities intersect with SHS Non-Monetary Counter-Inflationary Governance:

1. CORPORATE FINANCE

UKGI advises the Government on major corporate finance matters, financial interventions and negotiations.

SHS proposes an initial governmental investment relationship, including investment recovery arrangements and the development of productive infrastructure capable of progressively reducing recurring monetary expenditure.

2. CORPORATE GOVERNANCE

UKGI provides specialist expertise concerning complex governmental and commercial governance arrangements.

SHS proposes a negotiated relationship between two institutionally independent governance structures, requiring appropriate financial accountability, safeguards and clearly established responsibilities.

3. FINANCIAL INSTRUMENTS AND TRANSACTIONS ADVISORY GROUP (FInTAG)

UKGI possesses a dedicated specialist team examining financial instruments, transactions, investment exposure and contingent liabilities.

SHS explicitly proposes a protected dual-government contingency fund, transitional financial arrangements, investment recovery mechanisms and safeguards against financial and operational risks.

4. GOVERNMENT CORPORATE TRANSACTIONS

UKGI provides expertise concerning significant governmental asset transactions.

SHS proposes the development, acquisition and regeneration of productive assets, including commercial and residential estates, as part of its long-term reduction of monetary dependency.

Your published responsibilities:

https://www.ukgi.org.uk/what-we-do/

https://www.ukgi.org.uk/what-we-do/corporate-finance/

https://www.ukgi.org.uk/what-we-do/corporate-governance/

https://www.ukgi.org.uk/what-we-do/contingent-liabilities/

https://www.ukgi.org.uk/what-we-do/government-corporate-transactions/

I am therefore not approaching UKGI arbitrarily. I am approaching it precisely because the Government has entrusted it with specialist responsibilities relevant to the financial architecture being proposed.

I am not requesting that UKGI independently authorise the entirety of SHS. I am requesting that UKGI identify what it can contribute within its own responsibilities.

Please refer this correspondence internally to your Corporate Finance, Corporate Governance and Financial Instruments and Transactions Advisory teams for their consideration, where appropriate.

If governmental commissioning or sponsorship is required before your specialists can engage, please identify the responsible department, the appropriate officials and the procedure through which that engagement can be initiated.

Where matters fall outside your institutional responsibilities, I request appropriate referral, taking into consideration the Cabinet Office's Guide to Handling Correspondence:

https://www.gov.uk/government/publications/handling-government-correspondence-guidance

The breadth of the proposition reflects the interconnected nature of the problems it seeks to address. It does not mean that every recipient is expected to address its entirety.

Each institution is being approached for the responsibilities and capabilities it specifically possesses.

The information that FOI can retrieve concerns what already exists. The specialist conversation being requested concerns what could be developed. These are two entirely different matters.

I look forward to your substantive response to the latter.

Kind regards,

SNW

To: Susan Ndinga_Wright <susan.ndinga0wright@gmail.com>

With many thanks for your correspondence. This is not something UKGI can engage with, principally as we are not policymakers. You might want to contact HMT if you have not already done so.

To: Enquiries, UKGI <Enquiries@ukgi.org.uk>

It is something you don't want to engage with, that is different. You have responsibilities towards it, yet keep making it about policy making. No one asked you to make a policy about it, I asked you to be responsible for your part.

Do bear in mind I will be a candidate for Mayor 2028, I will be speaking upon this. If you needed the information to approach me differently, you are not doing your job accordingly to your accounts.

Your judgement clearly isn't up to par and cannot be trusted to even gain an educated response.

I'm also aquiring evidence to political incompetence and you have just handed me a smoking gun.

Thank you so much your support to my side quests, where you couldn't support dor the one thing you're employed by the PEOPLE for.

Have a nice day
