Hi to whom this concerns,

I'm a Multi-dimensional Meta-Physicist and I have information / propositions about how current legal systems may be vulnerable to misuse of metaphysical or quantum-related concepts. I believe this could create security risks and I would like to share my research with the appropriate authorities.

I'm self-reporting and putting my intelligence forward as your asset, for being a government terrorist. I have been "terrorising" leaders of our system and government in UK to value the importance of adding meta-physical laws in the jurisdictions and I would've created a system that relayed the results and showed why it is so important, but they allowed their fears and egos to come in the way of universal inevitable expansion, such as MPs, Lawyers, influential individuals, professors and other members of the parliament, in order to push meta-physical aspects of life in our jurisdiction and constitutions.

So I decided to take it globally. You'll find all the documents you need attached below.

I have received confirmation that the current barristers and judges cannot fully indict me, and if so cannot win the court case as no current law includes meta-physics, which gives me too much power to do whatever I'd like, knowing the only way to stop it would be to kill me.

I've been recording everything on my public platform to press them in providing the resource so I can support the system in constructing guidelines that will make sure my child can sleep safe in the years to come, as many are getting accustomed with universal laws, there will be people who bypass the current law in atrocious ways with the excuse the law is limited.

I would love to be recruited by you so we could work out how to bring this forth, or I'll have to find a way to get taken to court and bring the system down from the inside out.

I am a supporter of the Universe, our Consciousness, and I will do whatever must be done in order to create a safer place for us all, even if that ends up with my death.

I am probably the only one who would approach it in this way, as I was made homeless I can see how people already are lawless but they still can be caught and pay for their sins, if knowledge about how one can use physics and quantum-physics to bypass the law, gets in the wrong hands before we integrate the expansion that our society has had, I believe it could lead to the worst terrorist attacks, serial killers, and more, where the law cannot stop them.

Take care.
