

SHS: Transforming the Financial System from the Inside Out

A Proposal for Metaphysical Governance, Education, and National Pilot Programs

Susan Ndinga Wright, Founder — Meta-Multi-Dimensional Physicist

“If we’re not taking down the whole fiat system, we’re redesigning it from the inside out.”

Executive Summary

In a world dominated by centralised fiat systems and digital wealth concentration, true human value is rarely recognised. Honeth proposes a revolutionary approach: a membership-driven, meta-physical ecosystem that compensates individuals not merely for survival, but for the full expression of their existence, creativity, and multi-dimensional contribution.

Our vision: **reimagine the value of human life, education, and creativity within society**, while integrating metaphysical ethics into national governance frameworks. This proposal outlines membership structures, multi-generational educational systems, and a pilot program in central London (Royal Mint Court) to operationalize these concepts legally and securely.

1. The Philosophy of Value

If we are not dismantling the fiat system, we can **transform it from within**. Analogous to the car replacing horses, we aim to offer the service society never knew it needed — recognition of human existence as an asset.

Individual and Creative Pricing

This is the real where I initiate the potential numbers have in our Universe, and as such our own individual coordinates in space become our price tag. Here our birthdays set the bar and how much we get to incorporate stems from the values we're able to extrapolate from our own storyline, our creations and experiences.

Everything laid out in this blog has been my life to this day, or at least parts of it. From my findings to my inner realms, to provide the ins and out of a multidimensional being in full expression of thyself and the information, downloads and findings it aligns to. Reason why Tesla had so much ingeniousness , he would use intensity to pull directly from the Universe, the Ether, the Ocean of data we live in constantly(semen retention one of them).

1999.14.08 - Life Path 5

- The price of my personal story: **£991,408.05** (Interviews, movies, books, TV series, illustrations, ...) Must be proof-read for alignment as we have nothing to hide, yet we want to make sure everything shared reflects the truth even if negative feedback.
 - This will be paid over a range of 7 yr (84 months = **£11,802.48 monthly**) to 178 yrs (2136 months = **£464,14 monthly Royalty**)
 - Multiple Individuals or organisations can come together in the financing (i.e. marketing + sales + recruitment's budgets, or Lucas + Aria + John, or Pink + Pall + Lino companies, to share rights on the interview bought / sold only after proofread.
- The price of my creations have their own birthdays too.
 - Interviews, movies, books, TV series, illustrations, ... about SHS, 4Honeth, CoMPYE, CoMPAE, Trinity of Light,.. **£252,109.21**

SHS Umbrella

- The whole ecosystem of SHS (Soul Heed to Sovereignty)

- **4Honeth** -> Sovereignty in Expression in our Production, Coworking, Events holistic spaces: £20,252,503.19
- SHS - Human First -> Education for organisations, offering meta-physical systems, restructuring and protocols: £20,230,108.16
- CoMPYE -> Centre of Meta-Physical Youth's Education: £251,909.28
- CoMPAE -> Centre of Meta-Physical Adults Education: £251,909.28

Leases

We call a lease the existence of a contractual agreement for a service, as a service is the vessel of a message from point A to B.

If for whatever reason the company or myself was to close/die, the fee will still be required to be paid in all occasions in our trusts, as it will be the fuel to re-create a better system. We learn from every life and create a circled economy that allows for its eternity to reinvest in its betterment.

4Honeth

Our memberships are all as group to encourage community and communion of creativity, for the exception of a Individual one. Having a membership allows you to share it with family, lovers, friends(Trinity of Love) and pass it as inheritance to your children when adults, as we'll have creative activities at our CoMPYEs, our Meta-Physical schools for children.

- Paid over generations; transferable to family, lovers, and friends ("Trinity of Love").
 - Lease up to 1000 yrs,
 - This goes for all leases.
- Single-use entries: **£12.99/hour**.

Benefits

- Access to the **4Honeth ecosystem** → Sovereignty in Expression.
- Full participation in CoMPYE (Youth Education) or CoMPAE (Adult Education) as entry induction.
- Free holistic services, production studio access, creative mentorship, and structured living to practice sovereignty in a controlled environment.

2. Educational Framework

Education designed to be lifelong, multi-generational, and transferable. Education should not vary as we all deserve lifelong education.

This too can be paid off over generations, as we want to aid to people's existence by releasing pressure, so we will offer the most training and services possible under our roofs, by allowing longer payment times, interest only on delayed payment, and it's also a transferable asset, as experiences such as educations should be able to be transferred too.

We make sure to avoid physical waste and meta-physical.

When the payment is completed the inheritant can decide whether to reopen a new one or not, as not everyone will have kids, thought the two CoMPs are interchangeable, meaning in practice:

- If the adult has an unfinished CoMPAE, they can revert to their child.
- If youth drops out of CoMPAE it can be used for the second child as CoMPYE
- Child at CoMPYE then CoMPAE, until drop out, leaving vacant time to be used based on the time frame of payment, and parent can pick up the rest.

Centres of Meta-Physical Education

Institution	Purpose	Price	Notes
-------------	---------	-------	-------

CoMPYE	Youth education, ages 0–20	£251,909	Parents co-learn 0–6, independence theory 7-13, practiced independence from 14+
CoMPAE	Adult education, multi-generational, based on level of mastery - 21+	£251,909	Interchangeable with CoMPYE for inheritance
SHS – Human First	Organizational meta-physical restructuring	£20,230,108	Pilot and consultancy services

Lease Payment Flexibility

- Leases up to 100 years for the CoMPS→ as low as £209.92/month.
- Can split or extend across family members, allowing continuity of education across generations.
- Organisations lease could go up to 1000 years

Curriculum Highlights

- Early childhood (0–6): First 7 years mandatory with parents, there will be specific areas for newborns Parent-child bonding, foundational consciousness awareness.
 - Combining the parents work with the child's studies for our employees, and for parents working elsewhere, we will provide them with hours of study based on their schedules for child.
 - At least one parent at all times, and the same non repeating over 3 consecutive times, to impose a balanced presence of parents

for the child, as we will work with the parent to create a structured schedule that works for everyone, as we will have multiple classes, workshops and presentations going on throughout the day, probably for 6 days a week. Not set by time, meaning you can pick on the lesson missed i.e. on Monday on Thursday.

- Pre-teens (6–13): Theoretical sovereignty, metaphysical problem-solving.
- Teens & Adults (13+): Practical sovereignty, community integration, multi-dimensional skill development.

If both the parent and the child after the 7yrs, attend separately at our CoMPs that will be double in price as two different leases, so one can either decide:

- To give the education to the child first and then pick it up whenever the now youth-adult decides to end their studies
- Take on a separate lease and do both at the same time

One follows linear timing and the other intensity, as the family's overall education would skyrocket.

Rationale

- Strengthens familial bonds while aligning individual growth with societal contribution.
- Facilitates transition to a post-monetary or energy-token-based society.

3. 4Honeth & SHS Services

4Honeth and SHS's services are more expensive, as Organisations have the potential to stay for longer and have a greater impact on the economy, while for 4Honeth the impact is more cultural through systematical creativity.

Only those who have gone through the CoMPAE or developed through the CoMPYE, can attend SHS & 4Honeth.

Members pay one monthly fee to experience life as a sovereign being and practice their multi-dimensionality.

4Honeth

- One comprehensive subscription: **£20,252,503.01**, including optional accommodations. (We'll see if an add on£ for these)
- Inclusive of Holistic life management: nutrition, therapy, studios, workshops,...
- Access to full ecosystem under a controlled, meta-physical environment.
 - Avoid having to pay for every single thing
 - They get to experience the utopia life, without money
 - Easier transition in a system without money, as we'll replace the currency of money with energy tokens based on contribution and community presence with different systems to capture this

SHS – Human First

For SHS, organisations (from Companies to Countries) can choose a one-off service which will be half the total amount (this can be paid in installments over a max of 1000yrs), or a full on management restructuring:

- **I do:** We manage backend under supervision.
- **We do:** Co-create restructuring solutions with leadership.
- **You do:** Oversight until organization self-sufficient.
- One-off services at 50% total fee or full-scale engagements.

I will provide the organisations meta-physical consultancy myself at first, as SHS will only service the organisations under our roof while growing up and expanding, so only after seeing the results at 4Honeth, we'll launch SHS support services to the public.

Public Access Policy

- Only need-to-know information publicly released during the prototype phase.
- Confidential full reports maintained internally & stakeholders, until launched to the public,

4. Royal Mint Court(RMC) Pilot Program

Purpose

- Establish the UK as the **first nation integrating legally accountable metaphysical governance and education.**
- Operationalise a **Metaphysical Education & Governance Hub** within the RMC (Grade II* listed).

Immediate Objectives

- Secure ministerial meeting for white paper presentation.
- Formal pre-application discussions with Tower Hamlets & Historic England for heritage impact mitigation.
- Convene protected session with MI5/MI6/GCHQ to map national security risks.
- My expertise is resolving macro and micro issues with **Universal detail**, yet for individual industries I will need a team of representatives, to build the right bridges and interconnectedness.

Benefits

1. **National Security** – Mitigates espionage risks and enables early detection frameworks.

2. **Economic Growth** – Exportable educational and regulatory frameworks; new high-value vocational pathways.
3. **Global Leadership** – Positions UK as a pioneer in metaphysical ethics and governance.

Regulatory & Legal Framework

- **Judicial Review/Public Law:** Alternative, non-adversarial paths to compliance.
- **Sandbox Approach:** SHS & 4Honeth serve as a controlled pilot, monitored for 3–5 years.
- **Pilot Institutions:** Johnson Smirke, Seaman’s Registry, Dexter House, Murray House.
- **Public-Private Partnerships:** Invite embassies to participate in global metaphysical governance forum.

5. Integration with the Broader Economy

- Membership & educational frameworks designed to **transition society away from traditional money**, replacing it with **energy-based tokens reflecting contribution and presence**.
- Supports corporate restructuring, organisational efficiency, and soul-human-first operational protocols.
- Ensures equitable access to high-quality education, creativity, and holistic living.

6. Request for Ministerial Engagement

- **Uncapped-time presentation** of white paper and pilot plans.

- **Formal pre-application discussions** with heritage and planning authorities.
- **Security advisory session** for pilot risk assessment.
- **Permission to pilot demonstrator sites** under temporary governance frameworks.
- **Consideration of diplomatic & soft-power engagement** via UNESCO-style forums.

7. Conclusion

The 4Honeth ecosystem offers a **practical, scalable, and legally grounded path** to reimagine value, education, and governance in the UK. By embedding metaphysical principles into national frameworks, the UK can pioneer a **new era of consciousness-aligned societal design** — one that nurtures sovereignty, creativity, and intergenerational stewardship.
