

Everyone has got a natural blueprint and when it gets fused with the nurture received, it builds the foundational blueprint to our life at any given moment in time.

The energies of Nurture at the 2 tops change over time, where the goal is to gain full ownership of both our feminine and masculine self, as prior to that the nurture comes from parents or caretakers, yet Nature stands still and grows deeper & stronger over time.

Nature houses our previous 3 most impactful and resonant selves from previous timelines, that are in alignment with the nature of our existence, as at any given moment in time we are the embodiment of 3 previous lives in nature and 2 previous people in nurture.

Soul Print:

- 1 Subconscious' Wholeness (Incarnated) - Yin
- 2 Conscious' Vision (Experienced during Incarnation) - Yang
- 3 Chosen Embodiment

Top half: With "me" - our nature fuels our Nurtures, our inner world

Bottom Half: Through "me" - our Nurture is fuelled by our Natures, our outward world

Centre: Our Own Self for the Wholeness - i.e. Susan Ndinga Wright

When top end matches bottom, we found our foundational key to ascend. We are the bridge between our inner world and our outer world.

Nature = Unconditional Love, relation with inner

- I love myself at /in any conditions

Nurture = Conditional Love, relation with outer

- To the condition my inner realm is respected
