A snippet from the need of the [last blog post](#). It wants your cross. I'm just giving you chances to define yours before it gets out of my hands. The moment I completely take you out of my blog, the universe takes care of you and it already gave you a snippet to our future. You decide which plane of existence you go blind next. Yo I'm not playing out here, you're playing with your own existence girl. The play is my existence, but who I am within is me. That's the Truman show. The big illusion. And yes, to your question. I have not seen your videos yet past the summoning, what's next?!

No idea what you did in your past, but this is one interesting karma plan to you. What did you do and ti which depth?

"A damzel in distress. NO matter what I do, she keeps coming up. What is this about?! ahaha every tail I start writing, wants her exposure, I can't help it. Which image do I choose to paint?! Or which will she allow to be shared?!"

Excerpts from [this post](#):

1) Only for the leaders behind these emails, the decision makers who have made the call to ignore my call. Call me petty. I call it ConClea " Consciousness Cleansing."

2) Things don't bounce back to me anymore as I've had my confirmation today. The energies I send have weight and effect. And belief is all that I need. I surpassed my own death, passed the threshold and weight of all these names, while feeling the repercussions of these energies on the 10th of May. It was all self-made. I see it now and I passed.

So let's see if they do too. Only one person in these emails isn't part of the list. Just for their sight and understanding what that was all about.

If they're willing to allow non-raped women to kill children that could've come and helped our world get better, they should allow this to happen too, as they've had their chance and done nothing about it. If anything happens they might try and find ways to pin it on me through what could be found in the physical, but I'm so far away from all of them, minus the fact I have no care or time to plan people's deaths, if something happens it will finally be a reason

to incorporate Metaphysical Laws in the system. If they are going to waste my time, I'm going to waste the length of their life. As the longer they go, the longer they hinder our Consciousness.
The list has the emails, whether I've been blocked or not.

Good night!

Hi teams,

<https://www.youtube.com/watch?v=8RLpXji1Fc>

Interesting how when I was playing the annoying kid you could look down upon, you all ran to see the circus, yet when things got serious you all scattered away with your tails in between your cheeks, I like to call it nose, but hey. (You got the joke there?! lol)

If you were to be honest and transparent for once, and I'll take the responsibility of speaking your subconscious cause someone's gotta do it, you'd say something along the lines of how impressive, innovative and wise I move through life. You fear seeing the real me, cause it would show you your own inadequacies.

Trust I told someone quit their job thanks to conversations with me and are now following their own happiness. You're the ones avoiding the blessing I am and what could be built here, not me, cause I'll have me for life.

You? well... I'll leave it to you to self-define, whether in delusion or truth, deep down you know the truth.

But if you were to put those words down or express them, it would crack the facade you choose to enact on a daily, how you don't seem to see yourself as your purpose, meaning you will never figure out your highest potential of why consciousness needed you, instead you're fuelling the same system that hinders all the rest.

The easy option, cause who wants to be the outcast?! The smart ones, cause that's where they can see the full landscape and develop solutions to do something about it.

No one taught you how to grow up, not my fult, I'm showing you how, yet you don't have the humility to learn, that's what's funny. You say "I have the responsibility to help people", yet you don't really do the job in expanding your own perspectives.

Tell me again you're doing your job right?! Do you fear the challenge to see where you're not?!

You're not set on intentions, you don't have a clear purpose and certainly not the mastery, to help society, because you're giving food to chickens in a box, you're not creating a world for them backed up by the system that supports that growth, so you telling people what might be true without a plan for their macro, is disruptive to their wholeness.

Sorry, but shame on you for not seeing it.

Another chance, for you [here](#), might be the last one as others are picking up on it.

PS: yes I keep reaching out to you, because unfortunately too many believe you're the saviours. False Prophets, that's what you are, cause the real ones allow themselves the growing pains of being challenged and learning their lacks. You puppets in a puppet show. Nothing you can take home/soul. You provide for people's physicality, minds at best, but even there not thoroughly, killing their souls and yours in the midst.

TAKE CARE FOR NOW AND INTROSPECT WE NEED IT, your people need it.

Good morning teams,

I hope you had a great start to your morning. Let's make it even better for you, by sharing where it was and still is, rooted in.

The objective was always made aware through my **creative writing**, to show what a metaphysical geek could look like. I mentioned it in this post "[Why Metaphysics belongs in our Laws](#)", remember? It's safe to get you out of the Truman show and Matrix you created in your mind.

Don't just take my words for it, I have prepared my own submissions and attached them below for you to see, why the mis-perception had you thinking I was someone I knew I was not, the main reason why I allowed myself to **play the character** even louder and you bought it all. It's called creative writing for a reason and I just happen to be really good at it.

Have your esteemed researchers, physicists, scientific hats of all kinds really, bio too, psychs,.. have them all look into it if you must try and find a way to neglect yourself, your dependents and everything at large, in the hopes of shooting the messenger, you will see the disbelief, astonishment and awestruck reaction on their face. I won't even need to be there, I've seen it myself already.

I had also mentioned how to approach it in [this video on Youtube](#) here.

You unfortunately were raised in a system that didn't tell you about yourself nor the ecosystem in which we live in, because our leaders never saw the "NEED" to dive in and educate themselves. The process alone has you breaking all beliefs of the reality in which we've allowed ourselves to believe to be living in. Trust I was you too. And because of it, I know not all have the courage to do the inevitable, as that's where our humanity is headed whether you choose to integrate and pay attention to it now.

The objective was always made aware, to show what a metaphysical geek could look like, multiplied by millions all around the world, in one person, and you found it so annoying. Imagine versions of that on the streets, in our offices, in our hospitals, in every aspect of life, that knows anything they do, they will have a way out until we create a framework that both educates and regulates, not mandates?

I'm excited to share my latest piece, "**Dimensions Mastery: The Only Dance We Need to Master – Projection & Reflection.**" It explores how perception and expression shape our multidimensional experience — from the micro to the macro — and how balance between inner and outer expansion becomes the dance of harmony itself.

It's a deep dive into how frequencies, consciousness, and dimensional states intertwine to reveal our relationship with creation, reflection, and purpose.

You can read the full piece in the attached PDF. I'd love to hear your reflections or how this perspective resonates with your own journey.

If interested and curious to know more before sharing, [here](#) some additional context docs for you, [this](#) on the Genesis Equations and metaphysical breakdowns in Italian, German, Chinese, Russian, Spanish, French.

With appreciation,

Where's this screenshot form? But can you at least find where its contents are formed?!

Find this one and you find the key:

If the government, the City of London, or the Crown refuse this, it will be a scandal greater than Grenfell for whoever had authority there. It would mean current authorities allowed the ship — the people within their governments — to fall in the name of their righteousness. For every year we've had metaphysical progress, authorities have had opportunities to incorporate what was learned; instead, we still treat people as if being human is the only thing they are, which gives pharmaceutical companies license to offer tools to the wrong patients. Every war, every pandemic, every riot, every unlawful death, every accident, every pain is on the governments' and authorities' bodies, because they allowed it to happen. John Dee's laws were created here — they helped shape the British Empire. Putting a value on existence on paper became a vehicle for their expansion. Now it can become a booster for everyone, not just a few.

I did the work before applying for the job, though the job was always clear to me. I found egos too big to release or invest the resources they had, which pushed me to seek higher minds. It's never just about finding the right government; it's about finding the right frequency that governs one's mind. Governments are contracts mixed with reputation, prestige, fear, and containers.

And this one?

The email I sent — attached here for full context — represents a historic moment. It consolidates years of research, engagement, and development, and presents a **Plan of Action** that positions the UK to become the first country to formally recognize and operationalize the powers of consciousness in governance, education, and cross-sector collaboration.
