Where/What: [Website](#) - shshumanfirst.org

Why: Novelty and genius content that actually educates, with ourstanding storyline

Owned by: Susan Ndinga Wright. My intellectual property, trust me you do not want to go to court with me if you take this idea, no lawyer nor politician could beat me at theirs, it won't be you who does and the proof is in the pudding. Publically made and seen by the many.

Why now? Peak interest, I chose not do a Supersession and stay using my genius for creativity jn the worls of the arts.

My price or price of the structure of tv series as this? The best bidder creates the bare minimum and contractual agreements from there.

How much are you willing to pay for this?

The story: I'm police and psychologist proven to be above normal IQ n EQ, can check with GP, per example I allowed myself to stay homeless to learn all the lacks of the system and build the better one they can never contest and have not found solution to explain why politicians have never thought of it before.

I'm only coming to you, as it would cut time for me, or else I go independent.

You have until tomorrow evening at 11:55pm, to lt me know, otherwise I will self finance and never open up to any company.

Ome of you opens your industry to even the others in the future, nome of you, only has me independent for life, and will write a law in IP n Copyrights that it shall never change. Impearmeable, no matter the time.

Agaian, I know my laws, and as I've state my offer, and not giving you my own creation freely, you are liable if you dar to integrate it without my recognition or permission.

May the best win. The odds are in your favour. Red or Blue, I'll never go blue. Friend or foe, I roar on your throne. Toodles. Magic is real isn't it?! " Tell A Vision ". Here's mine and you're all in it, as even this email is content to it, as my life is it.

Welcome to my Truman Show y'all. This is real life Inception, nothing is fictional.

I'm my own agent, lawyer/attorney, producer and director, manager and industry executive, as no one has ever thought of metaphysical cinematography.

Have a Divine day
